

“Proof Positive”

Discussion/Study Material for the podcast from Sunday 10/26/2014

From Marianne Williamson's *The Law of Divine Compensation*, page 101-102:

“While the power of negativity is clear to most everyone, the power of vigorous positivity receives short shrift in comparison. Positivity is more than the absence of the negative; it is the presence—through thought, word and action—of the positive. In other words, simply not being negative is not enough. If we're interested in creating miracles, in invoking the most powerful creative manifestations, we must proactively be positive. There are three types of positive attitude that make all the difference: positivity about other people, positivity about possibility and positivity about ourselves.”

Discussion/Study Questions:

1. Why do you think having a “positive attitude” helps to activate the Law of Divine Compensation?
2. Do you have a history of negative self talk? What can be done to create a positive self-image?
3. Why does it matter what you think of other people?
