

# “The Principle of Sufficiency”

Discussion/Study Material for the podcast from Sunday 10/18/2015

From John Randolph Price's *The Abundance Book*, page 15:

“The deeper your understanding of Spirit as the Source, Substance and Activity of your supply, the more permanently that Truth will be etched in your consciousness. That is the Law.”

“Your outer world of form and experience is a reflection of your inner world of thoughts and feelings. As above, so below. As within, so without. That is the Law.”

Discussion/Study Questions:

1. Why is it important to see “your inner world” as the source of prosperity, rather than your job or other sources of physical income?
2. Do we have to believe in God (or a “higher power”) for the Principle of Sufficiency to work in our lives? Why or why not?
3. Price uses the first chapter of the book to explain that the “principle of sufficiency” has been taught for centuries in many traditions throughout the world. How is the information useful to us, today?
