

“Money, The Energy of Divinity”

Discussion/Study Material for the podcast from Sunday 11/1/2015

From John Randolph Price's *The Abundance Book*, page 50-51:

“Ageless Wisdom teaches us that money is the energy of divinity, and that in fulfilling our needs we must work with the energy of love and not desire. I have found that if I somehow shut down the Love Vibration—the feeling of complete unconditional love for everyone—I am putting a heavy restriction on my visible supply.

Remember that our “natural energy” is love, therefore the “yield” is created out of love and returns to us on wings of love. Without the intense radiation of love, there simply cannot be the full and complete manifestation and attraction of supply-in-form.”

Discussion/Study Questions:

1. What is the difference between the energy of love and the energy of desire?
2. How can we cultivate the “Love Vibration?”
3. Why might spiritual practices such as forgiveness and gratitude be useful in the study and realization of financial freedom?
