To Whom it May Concern:

It is my privilege to speak to Rev. Bridget McCann's consciousness and readiness to be a dynamic spiritual leader and senior minister.

I got to know Bridget when she served on the Board of Trustees at Mile Hi Church, and was immediately taken by her brilliance and supportive consciousness. Bridget was vital in both the technical and spiritual transition of leadership from Dr. Roger Teel to Dr. Michelle Medrano and myself.

On the technical side, she helped us write new church bylaws, and set a foundation for positive cultural change in our organization.

On the spiritual side, Bridget prayerfully got behind this change in leadership and championed it on the board and with the congregation. She so clearly worked for the highest and best for Mile Hi Church.

Having Bridget in practitioner studies, I got to know the deep and contemplative thinker, and devoted spiritual practitioner she is.

As a student in ministerial school, I have seen the spiritual teaching and leadership skills Bridget has developed. She brings wisdom and expertise, balanced with a minister's heart, empathy, and encouragement.

As a minister, Bridget is clear about who she is and what she wants to accomplish, while at the same time "Being open at the top." She has the ability to articulate and achieve her vision, bringing a community along, but she also has the discernment and inner breadth, to listen closely to spirit's voice within a spiritual community, to bring forth its greatness.

I have absolute confidence Rev. Bridget will bring an enthusiasm, an expertise in organizational management, a listening ear, and an ever willing heart to bless whatever community she serves.

Best,

Josh Reeves
